

"The Supreme Entity is the vastest entity;  
the ultimate source of all cosmic emanations.  
The Supreme Entity, which is difficult to conceive,  
is the subtlest of the subtle.  
He is farther away than any other entity,  
but again He is nearer than the nearest.  
Only the one who looks into the innermost recesses  
of himself can realize the Supreme Entity."

*Shrii Shrii Anandamurti*

The spiritual philosophy of Ananda Marga recognizes that God is one, and that the universe is the creation of His mental thought-waves. Thus it is said: "Brahma is the absolute truth, and the universe is also truth, but relative." The diversities of this universe are the transitory transformations of part of His infinite cosmic "body" in a never-ending flow. This implies that life and the universe will never end, but that parts of it are continuously being created from Him and concurrently merging back into Him.

The universe exists as an ever-changing, constantly moving phenomenon. He has transformed a part of Himself into the drama of the world of which we are all a part. But He is also beyond all relativity and transitory existence. He is beyond time, space and mind. He is the Causal Entity. One cannot even begin to imagine Him, let alone speak about Him.

"He is infinite.  
He has no beginning and no end.  
He is the unbroken flow of pure and serene bliss,  
stretching from beginninglessness to endlessness."
