DMS in Siberia, Russia - August 2014

A very inspiring and historical two day Shravanii Purnima DMS was successfully completed at Ananda Shivanii MU in Siberia, Russia on August 9-10, 2014

Over 400 Margiis from Russia as well as Central Asia Uzbekistan, Kazakhstan, Kyrgyzstan, Hong Kong, China, Korea, Taiwan and Manila sector attended the gathering joining the 22 WTs of Hong Kong Sector. It marked the first time that a DMS and Sectorial Conference were held in Siberia, Russia.

Mahavishva Newsletter has a new Facebook page: www.facebook.com/mahavishvahksector

Messages

My warmest greetings for New Year 2015 and Namaskar to all.

It gives me immense pleasure to inform you that our last several issues of Mahavishva Hong Kong Sector Newsletter were greatly appreciated by all. This will serve to inspire and view our work done as a family of Hong Kong Sector. Our target is to equip them with valuable information related to the Building of our Great Universe.

Every margii and worker has his or her specific talents and purpose for His Mission in whatever ways he or she chooses to do something important for the progress of our global organisation. But overall, most would agree that the journey to the finish is what resonates in most; working together in discipline, coordinated cooperation and a systematic manner. We should always remember the goal and strengthen our moral and spiritual value. Let us never neglect our Sadhana and all the rules which have been given by Guru for us to follow; especially 16 points. Inspiration comes from Him. Baba is watching, guiding, helping and supervising all of us all the time, so the goal should not be forgotten.

I would like to extend my heartfelt gratitude and thanks to all margiis and workers who shared their time and effort in helping us to finish the souvenir and working for His Mission day and night. Special thanks to the editor Ac. Yogananda Avt. May beloved Baba shower His grace on us for all round welfare and success, and may you continue to encourage more members to join in the quest to uplift our mission towards a global stature.

In Him, Yours
 Āc. Shubhaniryasānanda Avt.
 Sectorial Secretary
 Hong Kong Sector

Our Beloved Baba has given us great responsibility by choosing us to work for His Mission. It is His Grace only that we can do anything for Him.

With His inspiration we can work tirelessly to serve humanity and with His guidance we can take society forward.

Yet it is only through His Love that we can create a true change in ourselves and consequently in the world.

It is a great pleasure to see that the progress in Hong Kong Sector by the efforts of Margiis and Acaryas reflects that spirit of serving Him with sincerity and devotion for the welfare of all.

May Baba's Grace always be upon all.

Avtk. Ānanda Kalyāñashrii Āc.
 Sectorial Womens Welfare Secretary
 Hong Kong Sector

*"I am the Mission and the Mission is me.
 Whoever loves my Mission loves me." - Baba*

To truly realise Baba, we are compelled to do intensive sadhana and work tirelessly for His Mission. Obstacles and challenges will surely arise, but tremendous inspiration and deep love for Baba is experienced by everyone who takes His name when performing selfless service.

All the accomplishments in Hong Kong Sector over the last two years, are a testament to His Divine Grace and Love for all. I can only hope that this Mahavishva Souvenir provides some inspiration to all who read it, so that they may continue to serve Him and His Creation with even more enthusiasm.

Āc. Yogānanda Avt.
 Public Relations Secretary
 Hong Kong Sector

DMS in Siberia, Russia continued...

Margiis performed two nights of RAWA with the highlight being the kiirtan concert on the first night. A total of 120 hours of Akhanda Kiirtan was performed that generated a soothing and sweet flow throughout the entire 8 day gathering.

PP Dada's 10th morning talk highlighted the significance of that occasion. Dada's talks on the first day 9th August centred on Mahasambhuti Baba. Margiis were very inspired to hear the numerous Baba stories which demonstrated the omniscience, omnipotence and omnipresence of Mahasambhuti Baba. His evening DMS discourse focused on "Dhyana".

With our collective effort we achieved the following output during this DMS: WT- 1 brother; 2 brothers and 1 sisters are committed for WT and will go any time; LFT new created: 4 brothers and 6 sisters; AMPS Unit : 2 Gurkan and Blagevenchsk; AMPS Unit Renewed: 21; Akhanda Kiirtan: 120 hrs; Initiation: 15, Follow up 88; RM 4, Baby naming 4.

News from Around the Sector

Vladivostok Region

The establishment of Ananda Shivanii Master Unit in Siberia has attracted many Margiis to give their time to contribute to our Baba's mission.

The construction started in May 2013 and has hosed three LFT trainings, two huge conferences & a DMS, and several small retreats in between.

Seminar retreats are regular events in Russia. There is at least one retreat happening every month in this country in the twenty-two units that have been created over these last years. A total of over 3000 people have been initiated in the recent years averaging the age of 20-25.

The successful lectures, seminars, workshops, classes and retreats were possible with the increasing number of margiis inspired by Baba's philosophy and teachings and practices.

Highlights:
 5-day Akhanda kiirtan in Barnaul at beginning of January
 8-day summer retreat in Altai
 8-day summer retreat in Ananda Shivanii
 smaller retreats 3-4-day retreats in various cities; Lake Baikal in Irkutsk, Krasnoyarsk, Kemerovo, Chita, Vladivostok, Barnaul, Novosibirsk, Omsk, Chelyabinsk, Novokuznetsk.

Baby Naming Ceremonies & Marriage Ceremonies are common occasions in Russia nowadays during any gatherings.

RAWA is most favourite program in retreats. Margiis are often enthusiastic and performance and usually impromptu. They simply love to perform.

RAWA is also reaching out to the public. It is a subtle way of reaching out to new people and sharing with them our spirituality thru art. Kiirtan Concerts, which started this year are also another avenue of our praca activities in the region.

Service Projects

Margiis and friends of margiis gather regularly for many service projects in the various cities in Vladivostok Region. They range from feeding the homeless with the weekly hotmeal, assisting the needy aged persons, visits to Children's Homes, drama time for children, asanas for children and adults, vegetarian cooking classes, cleaning the environment, ecology awareness, save the animals, birds and flora.

AMURT/EL distributed food to 20 families, who were victims of the Altai flood disaster in June this year.

Besides very active margiis, there are currently about fifteen LFT and LPT brothers and sisters in our region volunteering their time for the mission.

Active prakar had been started and now active margiis are also continuing with the activities. Now Margiis in Russia are able to obtain information about our practices and philosophy online through Dada Sadananda's active recording of his lectures and information available online.

Ulaanbaatar Region

On July 25-27 of 2014 a very vibrated Regional Conference took place in the beautiful countryside of Mongolia. Historically it was one of the biggest Ananda Marga programs in Mongolia.

Around 60 people participated, the majority were new comers from the classes held in Ulaanbaatar Jagrti and many Margiis from Mongolia, Taiwan and Hong Kong.

Everyone was very happy to be part of this positive flow gaining a lot of inspiration to continue practicing meditation and learn more about Ananda Marga.

Under the supervision of Dada Shubhadhyandaji, prakar and service work continues in Ulaanbaatar. AMURT distributes food, clothes & blankets to impoverished families every month in the Ger districts (shanty towns) of Northern Ulaanbaatar. AMURT also feeds 40-50 people every week and sponsors regular Medical camps, which benefit hundreds of people every year. There are also daily Yoga and Meditation classes at the Ulaanbaatar jagrti and the number of Margiis continue to grow. A new kitchen in the jagrti was recently installed and the radiators and windows were replaced.

Lotus Children's Home

In January 2012, the Lotus Children's Center moved from their locations in Ulaabaatar's ger districts to the hills of Gatchuurt, 26 km out of town.

Two years later an extension onto the kitchen was built and serves as a bakery. All the equipment was donated by well-wishers from Australia and a highly respected chef has regularly visited to teach staff and teenagers how to make bread, pies and pastries, for own consumption and perhaps for future sales.

Just as baking is a useful skill to learn, teenagers have had various other vocational training opportunities, such as mechanics, car and bicycle repair and hairdressing. Volunteers from around the world have visited Lotus over the years, teaching piano, music, languages, arts & crafts, and anything else they wish to share for the welfare of the children.

The Lotus Center regularly receives media attention, in Mongolia and abroad, but one of the most important PR recently came from a TV program, aired on national TV, whereby a TV crew comes over to spend the night at a different location or institution each time.

They were very impressed by the standard and atmosphere at Lotus and by the loving and playful behaviour of the children. The TV program sent out a wave of positive publicity for Lotus around Mongolia.

Hong Kong Region

Ananda Marga activities in Hong Kong are mainly focused on guiding people to a harmonious living. Workshops on meditation, stress, anxiety and depression are offered at the city mediation centre to support people who are in need.

Also fruit fasting, yogic lifestyle and spiritual adventure camps are organised in the Master Unit for people wishing to develop new healthy habits for peaceful and healthy living.

Service programs are also arranged monthly to elderly homes and dog shelters etc.

Repairing and renovating the MU was another ongoing work to support our activities.

People from Asia and Europe regularly visit the MU and now Acaryas and margiis also find it comfortable to stopover in Hong Kong and focus on developing their consciousness through the application of love

Seoul Region

Ananda Karnika Master Unit

Dada Priyabodhanandaji is working very hard in the Master Unit. These last 2 years, Margiis and Acaryas enjoyed lot's fresh organic vegetables such as bitter gourd, bottle gourd, pumpkins, sweet potato, potatoes, tomatoes, cucumber & persimmon etc. The produce were sold to shops in Seoul and Gwangju. Brother Indradeva and Sister Bhakti also help Dadaji very much.

AMURT/EL Activities

In December 2012 a fund raising vegetarian dinner and RAWA concert was held at the Smiley Joe vegan restaurant in Seoul to help build a school in Ghana, Africa. It was a great experience for everyone!

Later that month, the restaurant owners travelled to India and donated jackets and blankets to Dadas and Didis in Delhi Sector at Ananda Nagar.

We could feel how Baba is working through us to materialise His mission.

Later we had the chance to do three more fund raisers after the floods in north India and the Typhoon in the Philippines. It was a big opportunity to do service.

Three dinners were held in Seoul, one in Seosan and one in Gwangju city, where Dada Yoganandya gave a presentation about AMURT at the Gwangju International Center (GIC). In total more than 270 people joined and over \$10,000 was raised for the various disasters and AMURT/EL projects.

Especial thanks to all Korean Margiis, GIC, Mukul Bassu, volunteers and overseas Acaryas.

Pracar in the Region

Geochang is a beautiful place; surrounded by mountains and natural water springs where the WWD Office was established in 2013. Didi Shivapriya started some regular programs such as Yoga & Meditation classes for women and kids, philosophy classes, fasting camps and some fundraising programs.

In November of 2013 we organized a vegetarian dinner with RAWA in a Buddhist vegan restaurant to help the victims of the Typhoon in the Philippines. More than 60 people joined and we got some extra donations from neighbours and local organisations like YMCA and Buddhists. Especial thanks to the YMCA, Madhu, Liina, Jarul, Ragavati, local artists, Margiis and Dada Yoganandaji.

In the beginning of 2013 a once a month pracar for new people started called "Cosmic Picnic", with yoga and meditation classes and a small vegetarian buffet. Thanks to sister Giribala, Sarala and Didi Shivapriya. In the Seoul jagrti Dada Priyabodhanandaji gives Yoga and cooking classes and sister Nandita and Divyapriyaji started english classes for children.

In 2014, inspired by SWWS Didi Ananda Kalyanshriji, a pracar program started once a month in a touristic area in Seoul called Insadong. Many Koreans and overseas visit there every weekend so we do collective Kiirtan and Meditation in the street and also Nagar Kiirtan. Many people took video, photos and got an explanation of the benefits and meaning of Baba Nam Kevalam! We continue to hold monthly Sadhana Shiviir.

Integrative Medicine Expo

From October 22-28, 2014, Margiis and Acaryas were invited to present Ananda Marga at the Integrative Medicine Expo in Jang Heung, Jeon Nam Province. Dada Shiilabhadranandaji gave a lecture titled Yoga for Health and Positive Energy. Margiis and Acaryas presented Asanas, Meditation and Kiirtan. Prabhat Samgiita songs were performed by Shanti and Namo and Prabhat Samgiita Dances were performed by Nirmala, Harshita, Nandita and Partha. Dada Shiilabhadranandaji was also interviewed by KBS PD regarding the role of yoga in Integrative Medicine. The Vice-Governor of Jeon Nam Province also met with the Margiis and Acaryas.

Taipei Region

Taipei

Taipei Margiis were active to perform social service activities at various homes for senior citizens, for mentally challenged children and in the prisons. Many appreciation letters were obtained for this wonderful work.

Sectorial Office got a new home on the 2nd floor of the existing Jagrti premises in Ding jou Road. In addition to serving as the Sectorial Office numerous classes are conducted there as our Pracar activities expand more.

New courses in meditation, philosophy classes and practical workshops for deepening meditation have begun in Taipei jagrti to complement the ongoing yoga and meditation classes. Weekend yoga meditation and yoga detox retreats are scheduled for 2015.

A new monthly class on Prout was also started by Dada Shiilabhadrananda. Sister Kamalika is selling organic food items in the Prout Jagrti which has the potential to develop into a small consumers coop. Dada Devajinana is giving regular philosophy classes and sadhana shir.

WWD in Taipei

SWWS Didi Ananda Kalyanshrii opened cooking class in WWD office, many sisters attended to learn how to cook and shared wonderful Indian food together.

On Nov. 16th a sisters retreat was held in the WWD office, the attendance was good, about 16 sisters were there.

SWWS Didi also opened Indian dances class in WWD office, 9 sisters attended the class, they enjoyed the Prabhata Sam'giita and Indian dances.

Thanks to the efforts of Didi Ananda Gunamrta and sister Yamuná, Ananda Pre-scool is Taipei is doing well and currently has 7 students enrolled.

Taiwan Kiirtan Parikrama

The Taiwan Kiirtan Parikrama has been held every January since 2010. For 15 days, devotees travel from place to place singing kiirtan. Three hours Akhanda Kiirtan in each unit and a grand finale of 12 hours in Baba's Quarter in Ananda Suruci Master Unit.

Over the years, participants have come from Korea, China, Japan, Vietnam, UK, Sweden and Finland, to sing and dance alongside their Taiwanese brothers and sisters and a number of Acaryas.

The tour group carries along the momentum and strengthens it as the journey advances. By the time the gosthi reaches the Master Unit for the final weekend, each body is tired, each mind is elevated to the level of the spirit soaring in a different realm.

Service Tour

In January 2013, the very first "Beyond Borders" Service Tour was held. The purpose was two-fold: to help the poorest schools and communities around Ananda Nagar through our service, and to let the Taiwanese (mostly young) margiis have a completely new experience to expand their minds beyond the coastline of Taiwan and the comforts taken for granted within them.

Twenty-one margiis, together with Dada Kaladharananda and Didi Ananda Rashmika set out to Ananda Nagar, to share their hearts with the children of the Village Schools through song and play. Apart from school visits, the team also donated clothing to the poorest residents, and organized a mass feeding program. As a result of one of the visits to a very remote school, where classes were held under a tree, the local people came closer to Ananda Marga with more trust and a school building is now being constructed.

Student Camp

Every year in the winter and summer holidays, Student Camps are held to introduce the new generation to the ideals and practices of Ananda Marga. Under the guidance of Acaryas and brother Iishvara, young Margii students, many of who had come through previous camps, organised the camps and in the process grew to be more responsible and committed to Ananda Marga themselves.

Two seven day sadhana camps were enjoyed by 20 Margiis in January and July of this year. The five day program enabled Margiis to renew their commitment to practice regular sadhana and gave them a unique opportunity to do long meditation along with many others.

We held another 72 hour Kiirtan program in Ananda Suruci from July 9-12 with over 100 Margii attending. The program was well organised by Dada Yogananda and Didi Ananda Gunamrta and everyone experienced the sweetness of Kiirtan in the natural surroundings of southern Taiwan.

Ananda Suruci Master Unit

On September 9, 2014 we started the construction of a new Medical Center (Wellness Center). The main construction work will be complete by April 2015 and we hope to open in July 2015. The center will include 10 bedrooms with en-suite bathrooms, a yoga & meditation room, treatment room, out-building for infrared sauna & steam bath, classroom, library, reception, kitchen, dining room, admin office, consultation room and laundry area. The facilities will also provide accommodation to Margiis during the Regional and Sectorial Conferences.

The Master Unit continues to hold regular fasting camps organised by Ac. Priyadarshiji and Madhavii. Over the last two years; 35 fasting camps were attended by 1,011 people, of whom 270 were initiated.

The organic farm at Ananda Suruci has been progressing very well over the last 2 years, since the addition of two full-time farmers who manage the fruit orchard and vegetable garden. The farmers work together with volunteers from all over the world who volunteer at the MU in exchange for food and accommodation. This year the MU has hosted 85 volunteers from 25 countries of whom 20 were initiated.

To accommodate all these volunteers, Dada Yogananda and some volunteer brothers spent 4 months renovating the shipping container accommodation, which had been at the MU for over 20 years. They used mostly recycled materials repairing and replacing the floors and interior walls. They also insulated and cladded the exterior walls to keep the containers cooler in the summer and warmer in the winter. Four new bathrooms and a kitchenette were also constructed.

From April - September 2014 Dada Yogananda, Dada Shiilabhadrananda, Didi Ananda Gunamrta, Parashara and Ajaya organised 3 Yoga and Meditation Retreats for beginners at the Master Unit. A total of 50 people attended the retreats. Everyone benefitted from the natural environment of the MU, collective meditation, asana classes, vegetarian philosophy classes and delicious food prepared by sister Ajaya from Taipei.

Kaohsiung WWD

Kaohsiung has witnessed a revival in prakar activities with the establishment of a new WWD Office in the city and the efforts of sister Tusita. It started off with a tiny rented room followed by a rented house until one sister came forward and offered an apartment for use free of charge.

Activities include regular yoga and meditation classes, monthly workshops and service in elderly homes and with an association for the disabled.

Liouguei

At the end of 2012, brother Adideva from Kaohsiung generously donated land in Liouguei, 40 minutes from Ananda Matrika MU, to WWD. The building has since been renovated and the property serves as a wonderful addition to the Ananda Matrika.

Deep into the mountains, the place is peaceful and very suited to meditation programs. After more than a year of renovations and clearing of the land, sadhana shivir weekends were held as well as karma yoga weekends to erect a boundary fence by collective efforts.

On the surrounding land banana trees and pineapples were planted, so that the fruits of these carry the special vibration of this peaceful land.

Ananda Matrika Master Unit

Ananda Matrika, the WWD Master Unit in Meinong, has been undergoing many changes these last few years.

Apart from the regular maintenance and repair of the buildings, the office got a new roof, one room and two new bathrooms were constructed and a boundary wall was raised along the front road.

However, the external changes are minor compared to the surge in activities for both margiis and the public, coordinated by sister Prashanti and LFT Prema.

During the detox weekends, Ananda Marga's system of fasting is introduced as well as its practices for health and wellbeing. Participants learn yoga asanas, kaoshikii, kiirtan and meditation, and on Sundays return home rejuvenated and recharged, physically, mentally and spiritually.

Women's Yoga Retreats introduce sisters to the yoga and meditation practices without the fasting element. With more energy from the healthy food the participants join some farming work as well, to get a taste of countryside living!

To experience countryside living is also the idea of the Open Week programs. Sisters and children who join follow the normal Master Unit routine of meditation, yoga asanas, collective meals and karma yoga. It is an informal program that allows mothers to bring their children along, who always beg to stay when it is time to go home.

For the children who are old enough to stay without their parents there are the summer camps. Independent living, sharing with others and a healthy active life are the base concepts during the camp. Children make their own meals, cooked on outdoor fires, take care of the household chores, and have lots of fun with games and swimming all the other times. Disadvantaged local children join the camp for free.

The Sunshine Project is an after-school program for these children during the scholastic year. They come to do their homework, play yoga games, play sports outdoors and go hiking in the nearby mountains. Sometimes monkeys are playing in the trees nearby. It is such a wonderful environment to work in!

The Master Unit has a small vegetable garden and a fair number of banana and lychee trees. The crops are enough to sustain the master unit volunteers during the winter season and all local margiis enjoy the bananas throughout the year. Apart from the activities, the Master Unit is supported by the bakery, run by LFT sister Prema. The bread has become more popular and is sold to various places in Taiwan. There are serious plans for the processing of locally grown fruits, to also support our neighbouring farmers too.

University Pracar in Taiwan

Dada Kovida and sister Aparajita have established a Yoga Club for university students in Tainan. The club was first established in the Tainan jagrti, but they have applied to National Cheng Kung Univieristy to be officially registered as a student club and when the next semester starts they will be allocated space on campus for their activities. Efforts to start Ananda Marga Yoga Clubs in other Universities are in progress also in Kaohsiung.

Tokyo region

The new AMURT Centre in Iijima was recently completed at a cost of US\$70,000. The centre will provide yogic and holistic therapies to local residents.

Regular yoga asana & meditation class are held in the areas of Kanto, Kansai, Kitakyushu and Okinawa. Regional conferences are held in Japan twice a year in Iijima, Nagano prefecture.

Sister Nitya and Didi Shivapriya organized some Pracar programs for new people in November. They visited Beppu Island and Tokyo. In both places they introduced the benefit of yoga, meditation and kiirtan. It was very inspiring for them to see how people were sincerely interested about it and enjoyed so much the peaceful and blissful vibrations of singing Baba Nam Kevalam.

Ananda Nagar Water Project

A check dam (Jiivesh Setu), sponsored by Ac. Shubhaniryananda Avt., SS Hong Kong and Acaryas and Margiis of Hong kong sector was constructed under the supervision of Ac. Acintananda Avt., Central MU Secretary and Ac. Anirvanananda Avt., Rector Master, Ananda Nagar. The dam was inaugurated by our Ac. Vishvadevananda Avt., Rev. Purodha Pramukha Dadaji on June 1st, 2014.

The dam now serves as a road to cross the river with vehicles and villagers are able to cut their trip to visit villages on the other side of the river by 6 km. Three villages now have direct access to the large reservoir of water created by the dam. Large areas of land previously barren because of the low water table, are now used to grow vegetables.

Ananda Nagar Village Schools Project

In 1995, the SS of Hong kong Sector started the "Ananda Nagar Village Schools Project". Up to now there are 17 elementary schools, 39 teachers and over 1,000 students benefitted by this project.

Amongst 17 schools, 10 of them have their own buildings, though they are not in a very good condition and were all constructed in a very simple way. There are no doors or windows, not to mention no lights, no blackboards, any chairs or desks, and students have to sit on the mats to study.

For more information, please visit:
