Memorable Letters from Eminent Persons

When the Anandanagar Degree College were established, many eminent persons were contacted by Anandamarga. The ideals of Anandanagar were explained to them and they were requested to attend the inauguration of the college. From the letters sent by them their deep and spontaneous faith in Anandanagar can easily be seen.

We presented before eminent thinkers of India and abroad the essence of ideals and philosophy of Anandamarga and its epoch-making message. They examined these ideals and

philosophy in depth and were eloquent in their praise. All of them stated the opinion that **Ánandanagar has a unique rule in contemporary society.** (Materials of this article had been published in a periodical. When the periodical was collected thirty two years later, most of its pages were worm-eaten and undecipherable. The magazine was a historical document on **Ánandamárga.** It appeared that this document was not obtainable from any other source. If what remained was not preserved, that would be lost forever. On these considerations, **Ácárya Kírtyánanda republished them in his book, 'Ánandanagar! Swapner Desh'.** He indicated the lines which worms had made undecipherable by dot marks. The letters have been copied from that book. Though small portions are missing, the reader will not have much difficulty in understanding what these eminent persons wanted to say.)

I have read about the aims of the Ananda Marga Pracharaka Sangha. It has plans to start a centre at Anandanagar where they will undertake to teach and spread education in an area which at present is very backward indeed.

But important industries are going to develop in its neighbourhood and a modern state cannot afford to leave large sections of its prople in ignorance and neglect while it plans to develop the material resources of the land where they live.

I am thus in full sympathy with the noble ideals of the society. That a number of devoted workers have come forward to dedicate their lives for uplift of their unfortunate brothers and sisters is indeed an encouraging sign.

I hope and pray that the college which starts and the Anandanagar Scheme may succeed in entirety and thus form the nucleus of a great movement of regeneration of our land.
